Sunday reverted again to the baseball "diamond" and the sporting pages this afternoon in driving home claimed the world had hard work in loving, and then assored his audience that they were the very persons God expected them to love. He said:

DRAFT RESISTERS FOUND **GUILTY OF CONSPIRACY**

Men and Guns Germany Gains By Russia's Surrender

When the Rusian Muzhik trades his machine-gun to the Germans for a drink of vodka, as many are doing, he comes near typifying the act of his Bolshevik superiors in giving up their military power for an intoxicating dream of anarchistic liberty. Like them, too, he may hit off the transaction with some fine phrase that seems to sanctify his murderous bargain.

Declaring piously that they cannot continue a war with the German and Austrian workers, they release those unhappy workers for transfer to the Western front where they may soon be thrown in masses at the Allied guns with far more disastrous results to themselves than if they had remained in the quiet trenches of Poland.

What is of most concern to the American people, however, is what gain Germany has made in men and guns by Russia's unconditional surrender, and in the leading article in THE LITER-ARY DIGEST for February 23d, there is a careful examination of this phase of developments on the Eastern front, and other contingencies that may arise in the near future.

Other articles of almost equal importance in this number of "The Digest" are:
